

process_sample

```
graph TD; A[process_sample] --> B[find_cancer]; A --> C[find_msi]; B --> D[all]; C --> D;
```

A flowchart with four nodes. The top node is 'process_sample' in a light blue rounded rectangle. It has two arrows pointing down to 'find_cancer' (yellow rounded rectangle) and 'find_msi' (green rounded rectangle). Both 'find_cancer' and 'find_msi' have arrows pointing down to 'all' (red rounded rectangle).
